

BIBLIOGRAPHICAL RECORD.

Authors and societies are requested to forward their works to the editors as soon as published. The date of publication, given in brackets [], marks the time at which the work was received, unless an earlier date of publication is known to recorder or editor. Unless otherwise stated each record is made directly from the work that is noticed.

A colon after initial designates the most common given name, as: A: Augustus; B: Benjamin; C: Charles; D: David; E: Edward; F: Frederic; G: George; H: Henry; I: Isaac; J: John; K: Karl; L: Louis; M: Mark; N: Nicholas; O: Otto; P: Peter; R: Richard; S: Samuel; T: Thomas; W: William. The initials at the end of each record, or note, are those of the recorder.

Corrections of errors and notices of omissions are solicited.

[American association for the advancement of science. 23rd meeting, Hartford, Conn., 12-19 Aug. 1874.] (Amer. nat., Sep. 1874, v. 8, p. 569-574.)

Notice of formation of the Entomological club of the A. A. A. S.; contains a list of papers read in section B, including about 12 entomological titles.

B: P. M. (2069)

American association for the advancement of science. [24th meeting, Detroit, Mich., 11-17 Aug. 1875.] (Amer. nat., Sep. 1875, v. 9, p. 524-527.)

Notice of meeting and of S: H. Scudder's Fossil butterflies [Rec., 591].

B: P. M. (2070)

American association for the advancement of science. [25th meeting, Buffalo, N.Y., 23-30 Aug. 1876.] (Amer. nat., Oct. 1876, v. 10, p. 636-640.)

Contains a list of papers read in section B, including 3 entomological titles.

B: P. M. (2071)

American association for the advancement of science. [26th meeting, Nashville, Tenn., 29 Aug.-4 Sep. 1877.] (Amer. nat., Oct. 1877, v. 11, p. 636-639.)

Contains a list of papers read in section B, including 3 entomological titles.

B: P. M. (2072)

American association for the advancement of science. [27th meeting, St. Louis, Mo., 21-28 Aug. 1878.] (Amer. nat., 1878, v. 12, Oct., p. 706; Nov., p. 769.)

Notes of meeting, with list of some papers read in section B, including none on entomology.

B: P. M. (2073)

American association for the advancement of science. 28th meeting, Saratoga [N. Y.], Aug. 27 to Sept. 2, 1879. (Amer. nat., Oct. 1879, v. 13, p. 664-665.)

Contains a list of papers read in section B, including about 6 entomological titles.

R. Th. (2074)

American association for the advancement of science. 29th meeting, Boston [Mass.], Aug. 25 to Sept. 1, 1880. (Amer. nat., Oct. 1880, v. 14, p. 757-760.)

Contains a list of papers read in section B, including about 30 entomological titles.

G: D. (2075)

Appointment of state entomologist for New York. (Can. entom., Aug. 1880, v. 12, p. 160.)

Appointment of Joseph Albert Lintner, of Albany, N. Y.

G: D. (2076)

Ashmead, W: Harris. The orange root borer. (Florida agriculturist [DeLand, Fla.], 16 Feb. 1881, no. 144, v. 3, no. 40, p. 316, col. 2-3, 34 cm., fig.)

Account and figure of a cerambycid larva, perhaps *prionus pocularis*, which consumes the interior of the roots of orange trees [*citrus*].

B: P. M. (2077)

Balbiani, E. G. Remarques relatives à une communication de M. Boiteau, sur la présence d'œufs d'hiver du phylloxera dans les couches superficielles du sol. (Comptes rendus, 17 Nov. 1879, v. 89, p. 846-847.)

Reply, by Boiteau, entitled "Réponse à M. Balbiani, au sujet de la présence de l'œuf d'hiver du phylloxera dans le sol." (Comptes rendus, 15 Dec. 1879, v. 89, p. 1027-1028.)

Crit. rev. of Boiteau's "Sur la présence, dans les couches . . . , d'œufs . . ." (Comptes rendus, 10 Nov. 1879, v. 89, p. 772-774) [Rec., 2083].

G: D. (2078)

Baly, Joseph S. Descriptions of new genera and species of *galerucinae*. (Annals and mag. nat. hist., Jan. 1879, s. 5, v. 3, p. 73.)

Cont. from v. 2, p. 422. Describes *diabrotica nigripes*, *d. fulvotincta* and *d. sexmaculata* from Guatemala and *d. interruptofasciata* and *d. insignata* from Mexico.

R. H. (2079)

Barber, Mrs. M. E. On the fertilization and dissemination of *duvernoia adhatodoides*. (Journ. Linn. soc., Bot., 15 Apr. 1869, v. 11, p. 469-472.)

Describes and figures the actions of a *zylocofa* when visiting the flowers of this African plant.
W: T. (2080)

Batelli, Dr.— On the anatomy of *eristalis tenax*. (Annals and mag. nat. hist., Jan. 1879, s. 5, v. 3, p. 94.)

The external tube of the tail is regarded as a modified segment of the body.
R. H. (2081)

Behr, H. The phylloxera and its foes. (Pacific rural press [San Francisco], 31 July 1880, v. 20, p. 66, col. 1-3, 88 cm.)

Lecture delivered at the July meeting of the State viticultural commission, at Sonoma, Cal., 23 July 1880; biography of the phylloxera; enumeration of its foes.
B: P. M. (2082)

Boiteau, —. Sur la présence, dans les couches superficielles du sol, d'œufs d'hiver du phylloxéra fécondés. (Comptes rendus, 10 Nov. 1879, v. 89, p. 772-774.)

Crit. rev., by E. G. Balbiani, entitled, "Remarques relatives à une communication de M. Boiteau, sur la présence d'œufs d'hiver du phylloxéra dans les couches superficielles du sol." (Comptes rendus, 17 Nov. 1879, v. 89, p. 846-847.)

Notice. (Rev. scientifique, 22 Nov. 1879, p. 500, 5 cm.)
G: D. (2083)

Boiteau, —. Réponse à M. Balbiani, au sujet de la présence de l'œuf d'hiver du phylloxéra dans le sol. (Comptes rendus, 15 Dec. 1879, v. 89, p. 1027-1028.)

Reply to E. G. Balbiani's "Remarques relative à une communication . . ." (Comptes rendus, 17 Nov. 1879, v. 89, p. 846-847) [Rec., 2078]
G: D. (2084)

Boill, Jacob, see B., J. H., Memoir of the late Professor Jacob Boill [Rec., 1926].

Bourgeois, J., see MOCQU'ERYS, S. and J. BOURGEOIS, Tératologie entomologique . . . [Rec., 2037].

Bowles, G: H., see ENTOMOLOGICAL SOCIETY OF ONTARIO—Montreal branch. 7th annual report . . . [Rec., 2093].

Bowles, G: J., see ENTOMOLOGICAL SOCIETY OF ONTARIO—Montreal branch. 7th annual report . . . [Rec., 2093].

Bridge-building ant (A). ("Leisure hour.") (Colonies and India, 11 Dec. 1880, p. 14, 9 cm.)

How the driver-ants [*anomma arcens*] of Africa, cross streams.
G: D. (2085)

Bridgman, J: B. Bees and flowers. Nature, 6 Dec. 1877, v. 17, p. 102, 6 cm.)

States that *andrena hattorfiana* is found only on the flowers of *scabiosa*; *colletes succincta*, only on those of *erica*. The writer finds that bees collect the pollen of several species of flowers on a single visit.
W: T. (2086)

Brongniart, C: and Max Cornu. Epidémie causée sur des diptères du genre *syrphus* par un champignon *entomophthora*. (Comptes rendus, 9 Feb. 1880, v. 90, p. 249.)

The note, with above title, sent to the Académie des sciences, and referred to their Commission on the phylloxera, is not printed in the *Comptes rendus*, but the remarks of the Permanent Secretary [Jean Baptiste Dumas] in regard to the application of fungi to the destruction of insects are printed (*I. c.* p. 249-251). Quotes an abstract of H. A. Hagen's "Destruction of obnoxious insects" [Rec., 1660] given in a communication by H. Donecker de Donecel to the Bull. soc. entom. Belg.
G: D. (2087)

Canker worms. (Springfield [Mass.] sunday telegram, 9 Nov. 1873, . . . 15 cm.)

Mode of protecting trees with printers' ink. Extracted from *Mass. ploughman*.
G: D. (2088)

Cornu, Max, see BRONGNIART, C: and Max CORNU, Epidémie causée sur des diptères . . . [Rec., 2087].

Crüger, II. A few notes on the fecundation of orchids and their morphology. (Journ. Linn. soc., Bot., 3 Mar. 1864, v. 8, p. 127-135, pl. 9.)

Considers the efficiency of insects in fertilizing several Trinidad orchids.
W: T. (2089)

Darwin, Francis. On the nectar-glands of the common brake fern (*pteris aquilina*). (Journ. Linn. soc., Bot., 1 June 1876, v. 15, p. 407-408.)

States that the glands attract several species of ants, especially *myrmica*; also *clater* and another beetle.
W: T. (2090)

Decaux, —. Destruction des *acarus*. (Feuille des jeunes naturalistes, March 1880, an. 10, p. 66-67.)

Uses carbon disulphide [C S₂] to kill *acarus*.
G: D. (2091)

Destroying grain weevils. (Science news, 1 Aug. 1879, v. 1, p. 304.)

"Riley recommends the use of bisulphide of carbon [C S₂]." S: H. (2092)

Entomological society of Ontario—Montreal branch. 7th annual report of the council. (Can. entom., Aug. 1880, v. 12, p. 146-147.)

Report rendered by G: J: Bowles, *president*, and G: H. Bowles, *secretary*. List of papers read and of additions to library.
G: D. (2093)

Erhaltung (Die) der flüchtigen Farben der Libellen. (Entom. Nachrichten, 1 July 1880, jahrg. 6, p. 145.)

Abstract of P. Stefanelli's "2nda memoria intorno alla conservazione delle libellule a colori fugaci" (Bull. soc. entom. ital., 1879, an. 11, p. 29-36) [Rec., 2124].
G: D. (2094)

Ernst, A. La enfermedad del malojo en las vegas del Guaire. (La opinion nacional [Carácas, Venezuela], 20 Apr. 1880, año 13, no. 3262, p. 2-3, 65 cm.)

Green corn fodder crops in the plains (*vegas*) of La Guayra attacked by an insect, here described, named provisionally *miris maidis* or *chinche del maíz*, which sucks the leaves and kills the plants. *B: P. M.* (2095)

Ernst, A. La epizootia de las moscas. (La opinion nacional [Carácas, Venezuela], 15 July 1880, año 13, no. 3331, p. [1], col. 4-5, 55 cm.)

Destruction of flies by *empusa muscae*; description of the parasite. *B: P. M.* (2096)

Fernald, C: H: Oviposition in the *tortricidae*. (Amer. nat., Jan. 1881, v. 15, p. 63-65.)

Separate, [Phil., 1881], p. 63-65, 23×15, t 18×10.2.

Description of eggs and larvae, habits and oviposition of *tortrix familiifera*, which is very destructive to leaves of *abies balsamea*. *B: P. M.* (2097)

[**Fitch (Asa),** The entomological collection of.] (Amer. naturalist, March 1880, v. 14, p. 228-229.)

Enumeration of the contents of this collection, comprising 106 boxes arranged, 12500 duplicates, 148 note books, and other material. *B: P. M.* (2098)

Forbes, Stephen Alfred. The food of the darters. (Amer. nat., Oct. 1880, v. 14, p. 697-703.)

Food of the *ethostomatinae*. Tabulation of the proportion of food which different groups of animals furnish to these fishes, which devour, among other insects, *corixo*, *palingenia*, *ephemeridae*, larvae of *phryganidae* and of *chironomus*, and pupae of *agrioninae* and of *chironomus*. *G: D.* (2099)

[**Geffcken, Woldemar?**] List of lepidoptera from the Nelson and Churchill rivers and the west coast of Hudson's bay. (Rept. of progress geol. surv. Can., 1878-1879, p. 63c-64c. Montreal, 1880. 8°.)

Nominal list of 25 butterflies and 4 moths. *S: H. S.* (2100)

Godman, F. Du Cane and Osbert Salvin. Descriptions of new species of *rhopalocera* from Central and South America. (Annals and mag. nat. hist., Sep. 1878, s. 5, v. 2, p. 257.)

Describes *callithomia panamensis*, *ithomia aeson*, *i. jucunda*, *i. caedua*, *i. rhene* and *tithorea pithias* from Panama; *phycoides politis* from Mexico; *ph. fulgora*, *ph. sosis*, *ph. cassiopea* and *adelpha sophax* from Costa Rica; together with many South American species. *R. H.* (2101)

Hagen, Hermann August. [Bibliotheca entomologica.] (Harvard register, April 1880, v. 1, p. 85, col. 2, 3 cm.)

Notice that Dr. Hagen leaves the continuation of this work to younger hands. *G: D.* (2102)

Hance, H: F. On the silkworm oaks of northern China. (Journ. Linn. soc., Bot., 7 May 1868, v. 10, p. 482-492.)

Considers the rearing of "mountain silk" worms, and the plants which furnish their food.

W: T. (2103)

Houlbert,—. Phosphorescence d'une scolopendre. (Feuille des jeunes naturalistes, Nov. 1879, p. 14.)

Phosphorescence of a French species of *scolopendra*. *G: D.* (2104)

Humbert, Alois, see SCUDDER, S: Hubbard, Les premiers types d'insectes ... [Rec., 2122].

Joly, Emile, see JOLY, Nicolas and Émile JOLY, Études sur le préteudu crustacé ... [Rec., 2107].

Joly, Émile. Note sur le préteudu crustacé dont Latreille a fait le genre *prosopistoma*. (Mém. soc. nation. des sci. nat. de Cherbourg, 1872, v. 16, s. 2, v. 6, p. 329-336.)

Considers *prosopistoma* an ephemeral. *S: H.* (2105)

Joly, Émile. Sur un nouvel cas de jeûne prolongé chez le *prosopistoma punctifrons*. (Annal. soc. entom. France, v. 8, trim. 2, Bull., p. 59-60.) *Zool. Anz.* (2106)

Joly, Nicolas and Émile Joly. Études sur le préteudu crustacé au sujet duquel Latreille a créé le genre *prosopistoma* et qui n'est autre chose qu'un véritable insecte hexapode. (Ann. des sci. nat., 1872, s. 5, v. 16, p. 1-16, pl. 13.)

General remarks; external structure, insect characteristics, habits; résumé and conclusions; figures anatomy. *S: H.* (2107)

Kansas state board of agriculture, Topeka, Kans. Quarterly report for the quarter ending June 30, 1880. [2d quarterly report for 1880.] ... J. K. Hudson, secretary. ... Topeka, [20 July] 1880, t.-p. cover+119 p. 23×15.

Contains, p. 22-37, 40-56, detached statements of the prevalence of insects upon the various crops throughout the state, and recommending to cut out borers from fruit trees as the only means against them; recommends hand picking of rose chafer [*macrodactylus*], p. 61; chinch bugs [*blissus leucopterus*] injure sorghum cane; contains also the following article:—

POENOE, E. A. The web worm. ... [Rec., 2060]. *B: P. M.* (2108)

Lintner, Joseph Albert, see APPOINTMENT of state entomologist ... [Rec., 2076].

[**Lintner, Joseph Albert, appointed state entomologist of New York.**] (Psyche, June [13 Aug.] 1880, v. 3, p. 83.) (Amer. nat., Sep. 1880, v. 14, p. 696.)

Announcement and commendation. *B: P. M.* (2109)

Lintner, Joseph Albert. The clover-seed fly, a new insect pest. (Amer. nat., March 1879, v. 13, p. 190.)

Brief account of and reference to description of larva of *cecidomyia trifolii* n. sp., which destroys seeds of *trifolium pratense*. *G: D.* (2110)

Meldola, Raphael. Butterflies with dissimilar sexes. (Nature, 24 April 1879, v. 19, p. 586-588, 62 cm.)

An extended review of S: H. Scudder's "Antigeny, or sexual dimorphism in butterflies" (Proc. Amer. acad. arts and sci., 1877, v. 12, p. 150-158) [Rec. 2121] *G: D.* (2111)

Mouillefert, —. Sur les résultats fournis par le traitement des vignes phylloxérées au moyen du sulfocarbonate de potasse [$K_2S_2O_3$] et sur le mode d'emploi de cet agent. (Comptes rendus, 10 Nov. 1879, v. 89, p. 774-766.) *G: D.* (2112)

Müller, Hermann. J. E. Taylor über Blumen, ihren Ursprung, ihre Gestalten, Gräser und Farben. (Kosmos [Leipzig], May 1879, bd. 5, p. 149-157, 289 cm.)

Reviews J. E. Taylor's "Flowers, their origin, shapes, perfumes and colours;" compares it with C: Darwin's "On the various contrivances by which British and foreign orchids are fertilized by insects" and with J: Lubbock's "On British wild flowers considered in relation to insects." Discusses the geological age of insects and flowers. *G: D.* (2113)

Olivier, A. [Boîte à insectes.] (Feuille des jeunes naturalistes, Oct. 1880, an. 10, p. 162.)

A new sort of box for collections of insects; no description given. *G: D.* (2114)

Papilio cresphontes in New England. (Amer. nat., Nov. 1877, v. 11, p. 688, 3 cm.)

Crit. rev., by T: E. Bean, entitled "Northern occurrences of *papilio cresphontes*." (Can. entom., Feb. 1878, v. 10, p. 35-36.)

Capture of the only specimen ever recorded from New England. [The review shows no nearer localities than W. Va., Ill. and Ontario] *B: P. M.* (2115)

Poisonous caterpillar (A). (New remedies, Aug. 1879, v. 8, p. 256, 6 cm.)

Extract from a paper by E. D. Jones in *Journ. roy. microsc. soc.*, June 1879, with note by editor of *New remedies*. *G: D.* (2116)

Riley, C: Valentine. The ailanthus silk-worm, *attacus (samia) cynthia*. (Science news, 15 Oct. 1879, v. 1, p. 377-383.)

Natural history, description; comparison with *s. ricini*; introduction into various countries; adaptability to our climate; difficulties in reeling the silk; relative value of native and introduced silk-worms. *S: H.* (2117)

Riley, C: Valentine. [Habits of the cotton-worm moth.] (Amer. nat., Nov. 1879, v. 13, p. 726.)

Believes that *aletia argillacea* passes the winter in the imago state only. *B: P. M.* (2118)

Ryder, J: A. An account of a new genus . . . [Rec., 1685].

Abstract. (Nature, 27 Nov. 1879, v. 21, p. 93, 6 cm.) *J. M. W.* (2119)

Schaupp, Frank G: Synoptic table of the genus *omophrone* Latr. (Bull. Brooklyn entom. soc., May 1878, [v. 1], p. [5].)

Chiefly extracted from p. 71-75 of G: H. Horn's "Contributions to the coleopterology of the United States" (Trans. Amer. entom. soc., June 1879, v. 3, p. 69-97). *F: G: S.* (2120)

Scudder, S: Hubbard. Antigeny, or sexual dimorphism in butterflies. (Proc. Amer. acad. arts and sci., 1877, v. 12, p. 150-158.)

Separate, with t.-p., [Bost., 10 May] 1877, p. 150-158, 24X15, t. 16.5X9.7.

Notice. (Amer. journ. sci. and arts, Sep. 1877, s. 3, v. 14, p. 244-245.)

Abstract. (Annals and mag. nat. hist., Feb. 1878, s. 5, v. 1, p. 184.)

Rev. by R. Meldola, entitled, "Butterflies with dissimilar sexes." (Nature, 24 April 1879, v. 19, p. 586-588, 62 cm.)

Colorational and structural differences between or in the sexes of various butterflies enumerated and classified; females more commonly aberrant than males; existence of androconia in males opposes the theory of sexual selection. *B: P. M.* (2121)

Scudder, S: Hubbard. Les premiers types d'insectes; origine et ordre de succession des insectes dans la période paléozoïque. (Archiv. des sci. phys. et nat. Genève, 15 April 1880, p. 353-371. 8°.)

Translation [by Alois Humbert] of S: H. Scudder's "The early types of insects . . ." (Mem. Bost. soc. nat. hist., March 1879, v. 3, p. 13-21) [Rec., 1789]. The bibliographical notes, together with note 1 on p. 16 and note 2 on p. 19 of the original paper are omitted. *S: H. S.* (2122)

Scudder, S: Hubbard. The early types of insects . . . [Rec., 1789].

Fr. transl., by Alois Humbert, entitled "Les premiers types d'insectes; origine et ordre de succession des insectes dans la période paléozoïque. (Archiv. des sci. phys. et nat. Genève, 15 April 1880, p. 353-371. 8°.)" *S: H. S.* (2123)

Stefanelli, Pietro. 2nda memoria intorno alla conservazione delle libellule a colori fugaci. (Bull. soc. entom. ital., 1879, an. 11, p. 29-36, pl. 6.)

Abstract, entitled "Die Erhaltung der flüchtigen Farben der Libellen." (Entom. Nachrichten, 1 July 1880, Jahrg. 6, p. 145.)

Directions for preserving living colors of *libellulae*, by rapid drying of fresh specimens. *B: P. M.* (2124)
